

Dear Educator:

Welcome to the *Positive Action* program! I'm so pleased that this "Does It All" curriculum will be a part of your important work. Like you, my staff and I are committed to making ourselves, our schools, our families, and our communities positive, happy, and successful. We want to help you achieve your goals and objectives. Please take a few moments to get acquainted with the *Positive Action* program.

Explore your kit. Review the manual—the cornerstone of the program. Read thoroughly through the Introduction to familiarize yourself with the program. As you can see, the lessons, activities, and hands-on materials are thoroughly prepared. Our careful planning frees you to do what you do best and improve the lives of others by bringing them these important concepts. Be creative, be inspired: you add the love and dedication that make this curriculum take root. Remember, the way you model the *Positive Action* concepts makes a difference.

You'll find that the philosophy and concepts integrate across all components: *PreK–12 Curriculum, Climate, Counselor, Family, and Community*. Watch for opportunities for positive actions throughout the day. Encourage the children, students, teachers, facilitators, parents, and community members around you to practice positive actions as well. You can even join the *Positive Action* Committee to plan and inspire powerful, site-wide applications.

Keep in touch with us at Positive Action, Inc. Your positive experiences delight and inspire us. Helpful hints, news items, and heartwarming stories are shared with all users in colorful newsletters and on the company website at www.positiveaction.net. We'll periodically send your site a new catalog to help you order materials and supplies. Questions, comments, and suggestions are always welcome. We would be happy to answer your questions, assist with program funding, or help you order additional kits or *Refresher Kits*. Call toll-free at 800-345-2974.

Thank you for helping us bring positive actions to the people who need them most.

Best wishes,

Carol Gerber Allred, Ph.D.
President/Developer
